down to even money. Monroe Doctrine also sold at even money, and Jonah White went begging at 2 to 1, until the houses went to the post, when a few wagers were made. Young Grino had all the advantage at the start, with Monroe Doctrine eightlengthebenhod at the first turn. Jonah White was to third place, but was going fast, and at the list turn was neck and neck with Griffo, and both running under the whip. Jonah White won by half a length. Stummary:

CHRISTMAS RIME-GEO. E. STIPRUM CO.

The progress of moders medical science has led to the discovery of successful methods of treatment for most of those maladies once reparded as incurable. Asthma has always been regarded as shourable. Asthma has always been regarded as belonging to this obstinate class baffling the skill of the greatest shypicians. Thousands of sufferers know by their own experience that little, if any, relief has been anorded them by the methods heretofore employed. Dr. Rudolph Schiffmann, the noted physician, has, after a life-long study of Asthma and kindred discusses, discovered a remedy which not only gives instant relief in the severest cases of Asthma, Hay Fever and Bronchills, but has actually cured thousands whose cases had been pronounced incurable. So complete is his confidence in his remedy, that to overcome the skepticism of the public growing out of the faffure of other remedies. Dr. Schiffmann requests this paper to announce that all day Thursday, Dec. 8, he offers a liberal sample box of "Schiffmann's Asthma Cure" free of charge to all persons applying at Logan Drug Co's Drug Store, Main and Tenth streets. He believes that an actual test will be the most convincing, and in fact the only, way to overcome the natural prejudice of thousands of Asthmatics who have heretofore sought relief in vain. Persons living out of town will receive a package free, postpaid, by writing direct to Dr. R. Schiffmann, 315 Rosabel street, St. Paul, Minn, before Dec. 15, as no free samples can be obtained after that date. Send simply your name and address plainly written on a post card. BOX.

CORRETT! WHO IS THE FELLOW? day deposited \$1,000 with a eporting edi-

All Serinof Local News and Gossip Frem the Glass City.

The body of Mrs. Ada Frostick, formerly Miss Ada Davis, of this city, arrived here from Pittsburgh Sunday night and will be buried in Davis' cometery this morning. Nothing had been known of the matter prior to the arrival of the body and even then the public was unacquainted with the cause of her death. The Pittsburgh papers revealed the manner yesterday, the Times containing this item:

"Ada, wife of Ambrose Frostrick, a heater in Schoenberger's mill, committed suicide last night at her home, 51 Carbon alley, by taking poison in the presence of her eight-year-old daughter and a boarder, Samuel Craig. This was done about 6 o'check. In spite of the efforts of physicians who were called in, the woman died at 10:30 o'clock after intense suffering. No cause is assigned for the suicide, as the domestic relations of Mr. and Mrs. Frostrick were of the most pleasant character. The Frostricks have been living in Pittsburgh but a short time, having come here from Bellaire, Ohio. The woman was twenty-eight years of age.

was twenty-eight years of age.

The resumption of work at the Old Rockershousen coal works, south of town, is hailed with pleasure by many coal miners, as the company desires forty men at present, twenty-four of whom are entry men. The company now owning the mines expect to do business on a large scale and will put in electric appliances and all the modern machinery in use anywhere. But, notwithstanding this they will employ over a hundred men when they got things in shape to operate fully. J. P. Wood, an active young man, is in charge, and he is a very energetic man. The starting of these mines will make an appreciable difference in the lower end of town.

The mayor, squires and some of the

The mayor, squires and some of the attorneys were kept busy yesterday, making out pension vouchers. The pensioners in this section have about doubled within the last five years, says one who is in position to know what he is talking about, but many of them are service pensions for small amounts.

Thomas L. Lewis and C. A. Jones left

Thomas L. Lewis and C. A. Jones left here yesterday for Zanesville, to attend the Ohio Federation of Labor conven-tion in session there. Both are delegates from this section representing coal miners and other local trades unions.

Miss Dora Kinney resumed her place as teacher in the schools yesterday, af-ter a week's absence with her father, who was injured in a runaway on

lower part of town. One objection is that there are no inlets, consequently ther will fail to drain off as hoped for. and it is said council hasn't the right to lay a sewer on private property at to lay a sewer on private property at the people's expense, as in the case of the Baltimore & Ohlo's ground. The chief objectors are citizens who opposed the compromise of the city with the Benwood Southern, whereby council agreed to take \$3,000, and call things square. This sum is now being devoted to sewer purposes. Council got \$2,000 for paving along the company's tracks which cost \$5,500, and in addition, council failed to hold the company to the provisions of its franchies regarding the paving and macadamizing of the road at the southern extremity of Benwood, which work was to have been done by the company according to its contract with the county, but the councilmanic brethren apparently ignored this feature, so that now the town will be forced to do the work at an estimated cost of \$4,000. Thus the town gots \$3,000 for an expenditure of \$3,500.

There was one of the old-time police

There was one of the old-time police There was one of the old-time police court sessions yesterday morning. Four drunks were on the boards, and the mayor put on the trimmings. A Pole who almost beat his landlady, an old woman, to death on Sundar, was fined \$10 and costs. The fellow choked her and otherwise cruelly beat her. He was arrested by Officer Slippner.

territories of Blac Chow, of Wei Hat Wel, and of Port Arthur and Tullanwan leased to Germany, Great Eritain, and Rusals respectively for terms of years, will, it is announced, be open to international commerce during such allen occupation; and if no discriminating freshment of American citizens and their trade be found to exist, or be hereafter developed, the desire of this government would appear to be realised.

In this relation, as showing the volume and value of our exchanges with China and the peculiarly Cavorable conditions which exist for their expansion in the normal course of trade, I refer to the communication addressed to the speaker of the house of representatives by the secretary of the treasury on the 34th of last June, with its accompanying letter of the secretary of earle, recommending an appropriation for a commission to study the commercial and industrial conditions in the Chinese empire and report as to the apportunities for the removal of sets obstacles to the enlargement of markets in China for the raw producing and manufactures of the United States. Action was not taken thereon during the late session. I foordaily urge that the re-

not taken therson during the late on. I cordially urge that the re-mendation received at your hands consideration which its importance timeliness merit. imeliness merif.

In time, there may be just ground squietude in view of the unrest and all of the old sentiment of opposite or the control of the control of the chinese provas in the case of the attacks. on our citizens in Szechusn and at has been instructed to secure the st measure of protection, both local imperial, for any menaced Ameri-nterests, and to demand, in case of interests, and to demand, in case of less minry to person or property, in-ni reparation appropriate to the case, rehips have been stakened at Tient-for more ready observation of the orders which have invaded even the disorders which have invaced even the Chinese capital, so as to be in a position to act should need arise, while a guard of marines has been sent to Peking to afford the minister the same measure of authoritative protection as the representatives of other nations have been con-

tailves of other nations have been constrained to employ.

Following closs upon the rendition of the award of my predecessor as arbitrator of the claim of the Italian subject, Cerruti, against the republic of Colombia, differences arose between the parties to the arbitration in regard to the scope and extension of the award, of which certain articles were contested by Colombia, while Italy claimed their literal fulfillment. The award having been made by the Presiden; of the United States, as an act of friendly consideration, and with the sole view to an impartial composition of the matter in dispute, I could not but feel deep concern at such a miscarriage, and while unable to accept the Colombian theory that I, in my official capacity, possessed continuing functions as arbitrator, with power to interpret or revise the terms of the award, my best efforts were lent to bring the parties to a harmonious agreement as to the execution of its provisions.

agreement as to the execution of its provisions.

A naval demonstration by Italy resulted in an engagement to pay the liabilities claimed upon their ascertainment; but this apparent disposition of the controversy was followed by a rupture of diplomatic intercourse between Colombia and Italy, which still continues, aithough fortunately without acute symptoms having supervened. Notwithstanding this, efforts are reported to be continuing for the ascertainment of Colombia's contingent Hability on account Cerruit's debts, under the fifth article of the award.

A claim of an American clitzen against the Dominican republic, for a public bridge over the Ozama river, which has been in diplomatic controversy fop several years, has been settled by expert arbitration and an award in favor of the claimant amounting to about 390,000. It, however, remains unpul despite urgent demands for its settlement according to the terms of the contract.

The Parle Exposition.

The Paris Exposition.

There is now every prospect that the participation of the United States in the Universal Exposition, to be held in Paris, in 1900, will be on a scale commensurate with the advanced position held by our products and industries in the world's chief marts.

The preliminary report of Mr. Moses P. Handy, who, under the act approved July 19, 1837, was appointed special commissioner, with a view to securing all attainable information necessary to a full and complete understanding by Congress in regard to the participation of this government in the Paris exposition, was init before you by my message of December 6, 1897, and showed the large opportunities opened to make known dur national progress in arts, science and manufactures, as well as the urgent used of immediate and adequate provision to enable due advantage thereof to be taken.

Mr. Handy's death soon afterwards rendered it necessary for another to take up and complete his unfanished work, and on January 11, last, Mr. Thomas W. Cridler, third assistant secretary of state, was designated to fulfill that task. His report was laid before you by my message of Jupe 14, 1888, with the gratifying result of awaltening renewed interest in the projected display. By a provision in the sundry civil appropriation act of July 1, 1888, a sum to exceed \$550,000, was allotted for the organization of a commission to care for the proper preparation and institution, in representation of the government of the United States.

Pursuant to that enactment I appointed Mr. Ferdinand W. Peck, of Chicago, commissioner general and a secretary. Mr. Peck in once proceeded to Paris, where his success in enlarging the scope and variety of the United States has been most gratifying. Notwithstanding the comparatively limited area of the exposition site—less than one-half that of the World's Fair at Chicago, commissioner general and a secretary. Mr. Peck, at once proceeded to Paris, where his success in enlarging the scope and variety of the Gratiste and installation be one perfect a scale as to

Other Foreign Relations. The commercial arrangement, made with France on May 28, 1898 under the

provisions of section 3 of the Tariff Act lowing. It has relieved a portion of our export trade from serious embarrassment. Further negotiations are now pending under section 4 of the same act, with a view to the increase of trade be-tween the two countries to their mu-tual advantage. Negotiations with oth-

tual advantage. Negotiations with other governments, in part interrupted by the war with Spain, are in progress under both sections of the tariff act. I hope to be able to announce some of the results of these negotiations during the present session of Congress.

Negotiations to the same end with Germans have been set on foot. Meanwhile no effort has been relayed to convince the imperial government of the thoroughness of our inspection of pork products for experisation, and it is trusted that the efficient administration of this measure by the department of agriculture will be recognized as a guarantee of the healthfulness of the food staples we send abroad to countries where their use is large and necessary.

I transmitted to the sense on Februs

food staples we send arroad to countries where their use is large and necessary.

I transmitted to the senate on February 10 last, information touching the prohibition against the importation, of fresh fruits from this country which had then recently been decreed by Germany on the ground of danger of disseminating the San Jose scale insect. This precautionary measure was justled by Germany on the score of the drantic steps taken in several states of the Union against the spread of the pest, the elaborate reports of the department of agriculture being put in evidence to show the danger to German fruit growing interests should the scale obtain a lodgment in that country. Temporary relief was afforded in the case of large consignments of fruit then on the way by inspection and admission when found non-infected. Later the prohibition was extended to dried fruits of every kind, but was relaxed so as to apply only to unpeeled fruit and fruit waste. As was to be expected, the slarm reached to other countries, and Switzerland has adopted a similar inhibition. Efforts are in progress to induce the German and Switzerland has governswitzeriand has adopted a similar inhibition. Efforts are in progress to induce the German and Swiss governments to relax the prohibition in favor of dried fruits shown to have been cured under circumstances rendering the existence of animal life impossible.

Our relations with Great Britain have continued on the most friendly footing.

continued on the most friendly foot Assenting to our request, the protect of Americans and their interests Spanish jurisdiction was assumed natic and consular represents the alplomatic and constant representatives of Great Britain, who fulfilled their delicate and arduous trust with fact and zeal, eliciting high commendation. I may be allowed to make fitting allusion to the instance of Mr. Ramsden, her majesty's consul at Santiago de Cuba, whose untimely death after distinguished service and untiming effort during the sieges of that city, was

effort during the slege of that city, wa neerely lamented. In the early part of April last, pursu ant to a request made at the instance of the secretary of state by the British ambassador at this capital, the Canadian government granted families for the passage of four United States revenue cutters from the Great Lakes to the Atlantic coast by way of the Canadian canals and the St. Lawrence river. The vessels had reached Lake Ontarlo and were there awaiting the opening of navigation when war was declared between the United States and Spain. Her Majesty's government thereupon, by a communication of the latter part of April, stated that the permission granted before the outbreak of hostilities would not be withdrawn provided the United States government gave assurance that the vessels in question would proceed direct to a United States port without engsging in any hostile operation. This government promptly agreed to the stipulated conditions, if being understood that the vessels would not be prohibited from resisting any hostile attack.

It will give me especial satisfaction if the supported to communicate to

not be prohibited from resisting any hostile attack.

It will give me especial satisfaction if I shall be authorized to communicate to you a favorable conclusion of the pending negotiations with Great Britain in respect to the Dominion of Ganada. It is the earnest wish of the government to remove all sources of discord and irritation in our relations with the neighboring Dominion. The trade between the two countries in constantly increasing, and it is important to both countries that all reasonable facilities should be granted for its development. The government of Greece strongly urges the onerousness of the duly her imposed upon the currants of that country, amounting to 100 per cent or more of their market value. This fault is stated to be exclusively a Greek product, not coming into competition with any domestic product. The question of reciprocal commercial relations with Greece, including the restoration of currants to the free list, is under consideration.

The long-standing claim of Bernard

The long-standing claim of Bernard Campbell, for damages for injuries sustained from a violent assuult committed against him by military authorities in the island of Halti, has been settled by the agreement of that republic to pay him \$10,000 in American gold. Of this sum, \$5,000 has already been paid. It is hoped that other pending claims of American citizens against that republic may be amicably adjusted.

HAWAIIAN ANNEXATION. Status Explained - Some Important

Pending the consideration by the senate of the treaty signed June 16, 1897, by the plenipotentiaries of the United States and of the republic of Hawaii, providing for the annexation of the lands, a joint resolution to accomplish the same purpose by accepting the offcred cession and incorpating the ceded
territory into the Union was adopted
by the Congress and approved July 7.
1898. I thereupon directed the United
States steamship Philadelphia to convey Rear Admiral Miller to Honolulu,
and intrusted to his hands this important legislative act, to be delivered to the
president of the republic of Hawali,
with whom the admiral and the United
States minister were authorized to make
appropriate arrangements for transferring the sovereignity of the islands to
the United States. This was simply,
but impressively accomplished on the
12th of August last, by the delivery of a
certified copy of the resolution to President Dole, who thereupon yelded up to
the representative of the government of
the United States the sovereignty and
the public property of the Hawaiian Islands.

Pursuant to the terms of the joint resthe same purpose by accepting the off-

the United States the sovereignty and the public property of the Hawaiian Islands.

Pursuant to the terms of the joint resolution and in the exercise of the authority thereby conferred upon me, I directed that the civil, judicial and military powers thereforere exercised by the offices of the government of the republic of Hawaii should continue to be exercised by those officers until Congress shall provide a government for the incorporated territory, subject to any power to remove such officers and to fill vacancies. The President, officers and troops of the republic thereupon took the oath of allegiance to the United States, thus providing for the uniterrupted continuance of all the administrative and municipal functions of the annexed territory until Congress shall otherwise enact.

Following the further provision of the joint resolution, I appointed the honorable Shelby M. Cullom, of Illinois, John T. Morgan, of Alabama; Robert R. Hitt, of Illinois; Banford B. Dole, of Hawaii, and Waiter F. Frear, of Hawaii, as commissioners to confer and recommend to Congress such legislation confided to them, their report will be laid before you at an early day. It is believed that their recommendatements.

Continued on Sixth Page.

Is your appetite poor? Does you food distress you? And are you losing strength? Then take a thorong the state of the state

BOWLING. The second handicap of the Wheeling League season has been announced by Harvest alleys on the evening of December 14. The averages of the men entered will be taken from the first eight weeks' work. All men entered will be andicapped by the high man entered.

The captains have been requested to name their representatives on or before Saturday, December 10. Everybody is invited to attend. WHEELING LEAGUE. Wheeling won three straight last night. Score: Rum Dums, 624, 764, 785; total, 2,163. Wheeling, 933, 885, 964; total, 2,782.

THE RUNNING RACES.

but one book handled all the local business. The first race was won handly by Fred Munch, the favorite. There were hard drives in the finishes of the next two events on the card, and Klon-dike won the fourth race in a canter.

IT ENDED HER TROUBLE.

"I never courted newspaper notoriety, yet I am not afraid to speak a good word for your 'Favorite Prescription' and 'Fleasant Pelles.' Over a year ago I suffered terribly for nearly four weeks with prolapses and weakness. After useling one bottle of 'Favorite Prescription' and out of Pelles', I was a well sounan. I have taken no medicine since and have had no symptoms of my former trouble."—Mrs. E. A. Bender, Keers, Coshocka Co., Ohio.
